SPECIAL PACKAGES & CUSTOM PRICING

*Please keep in mind that I do have special packages that may better address your needs (such as my **outdoor portrait packages starting at \$350**). I'm willing to work with you to ensure that you're getting what you require when working with me. If my hourly rates and deliverables don't provide you with that, please feel free to contact me and we can negotiate a fair set of pricing and deliverables.*

DELIVERABLES:

- Fully edited and retouched images in full resolution (quantity as negotiated per project). **Final files typically take anywhere from 2 to 6 weeks for delivery, depending on how extensive the edits are and the scope of the project.**
- A private online preview gallery for you to choose your images from & to share with friends & family. **Please allow 3-4 business days for proofing gallery to be made available.**
- **Additional photos can be ordered, retouched and provided to you in full resolution for \$25 each. If you have a list of several photos that you would like to order, I can drastically reduce that price – I just need to be reasonably compensated for my time spent editing. I always keep it fair and affordable.**

COPYRIGHT & USAGE AGREEMENT

- **I do retain full copyright and 'usage rights' to all the images, which means that I can use them on my website and any other online, printed or other medium.**

**** The images are only licensed to you for share & use “as provided” and they are not to be manipulated, edited or cropped in any way shape or form; however, you are free to make such editing requests prior to me producing the final deliverables.**

- **You are required to sign a Model Release**, but you will retain full 'usage rights' (only as the images have been provided to you). **You can download & print the model release form here (I have also included it in the next page of this document):**
<http://www.petejones.ca/ModelRelease.pdf>
- **Proper social media crediting/mentioning is important and something I truly appreciate.** In fact, it's likely that I'm not the only one who will appreciate proper Facebook credits (or any other online/printed representation of the images). Everyone involved dedicates their time and expertise and it's a common courtesy that I always extend by properly crediting everyone involved. When mentioning me as the photographer in any image credits on Facebook, I most definitely prefer it when my professional fan-page is credited (Vs. my personal account). You can easily credit my fan page (with a link), by using the '@' symbol immediately before typing the name of my page (you must have 'liked' my page before the option to make it a link with the @ symbol is available). **If you look at the way I credit and mention the participants on Facebook, that's the best example of how I expect it to appear.** If you follow these two simple steps you will find that it's rather simple:

1. **Ensure you already 'like' my Facebook if you haven't already** (this is NOT the same as adding me as a 'friend'): <http://www.facebook.com/VancityPhotos>
2. **Use the following syntax when mentioning me on any photos you post:**

“Photographer: @Pete Jones Photography Vancouver”

If you have already liked my page, then the link to my page will pop up in a drop-down list well before you complete typing the name of my page. When you select my page from that list, the '@' symbol will disappear and my page name will now appear as a link back to my page! (I always go look at the post and ensure that the link worked, because Facebook can be little flaky at times)
